

**CHARLES UNIVERSITY
FIRST FACULTY OF MEDICINE
INSTITUTE OF BIOCHEMISTRY AND EXPERIMENTAL ONCOLOGY**

**Course of the exam of
Pathobiochemistry 2-Molecular Oncology
In the winter semester 2025/2026**

All terms for the Pathobiochemistry 2 - Molecular Oncology (B02432) exam were announced in the SIS. The number of terms is final, and in concord with the faculty rules, more than 170% of the terms have been announced. Both, pre-terms and regular terms will be available for enlisting from 24th of November 2025; certain time will be stated in the SIS.

Examinations will take place at the Institute of Biochemistry and Experimental Oncology, 2nd floor, U Nemocnice 5.

The exam is oral and the questions are published on the Institute's website. The student can take the exam only if all the examination prerequisites are met and if he / she is enrolled for the term in SIS.

A student who will not attend the enlisted exam and will not apology properly in advance will not be classified; however the term of the exam fails. The student must apologize in writing for explanation and justification of the absence. Once the term has passed, and if apologized properly, the student can enroll for another exam date.

The student has the right to take the exam at most three times, ie. has the right to 2 correction terms, an extra correction term is not allowed. However, if the student will not use these options within the given examination terms, this will not entitle the student to a specific term. Further examination terms will not be listed.

In the case of study administration, contact the. MUDr. Martin Vejražka Ph.D.

19th of the November 2025

Prof. MUDr. Aleksi Šedo, Dr.Sc.
Head of the institute
